

LET YOUR COMPANY SHINE LIKE A STAR AT EUROPE'S LARGEST ROBOTICS CONFERENCE!

The development in robotics in the City of Odense has been tremendous over the past 20 years, and today, Odense has one of the world's leading robotics clusters. As of 2022, more than €1 billion has been invested in Odense robotics companies. The collaboration between local government, knowledge institutions, and industry representatives makes for a rare, innovative ecosystem matched by few other cities in the world.

This has attracted the European Robotics Forum - the annual "family reunion" for 800+ top robotics enthusiasts from industry and academia. ERF is the de facto meeting at the edge of what is going on in robotics in Europe.

BECOME PART OF THE FAMILY!

Right now you have a unique opportunity to secure your participation in ERF2023, March 13th to 16th 2023 in Odense.

CHRISTIAN SCHLETTE
Host

**We are personally
looking forward to
welcoming you to
Denmark in March!**
